3. __________________________________________________________________________

4. __________________________________________________________________________

What issues are you experiencing? (Very important to include if the issue is intermittent!)

Would you like an estimate?  YES  NO  Pre-approved up to $____________

Important Information

- When shipping your equipment, please be sure to pack to protect against damage, especially with larger equipment. Newspaper, air pillows, peanuts, etc. will not protect against damage if the package is dropped/mis-handled during transit, and insurance does not cover against improper packing. We can help with boxes if needed.

- For large equipment, if your box/packing is deemed insufficient to safely transport your equipment back to you, there will be a surcharge for a new double-walled box & custom foam insert. Boxes are $8 and foam inserts range from $38-$65 based on the box size. The boxes and inserts are reusable and are recommended by UPS and FedEx.

- For ovens, please do NOT send any accessories - keep all trays, platforms, power cords, etc. - GDS cannot assume responsibility for accessories.
